**Directions given for "Leaf Person" art project...**

**\*completed model located on the board to copy**

- 1. The pine cone is the body. Color it BROWN only.  
Do not use any other color on the pine cone.**
- 2. The face, arms (short leaves) and legs (longer leaves) should each be colored with one of the fall colors that we have been talking about. (Five leaves = 5 colors...ONE red, ONE yellow, ONE brown, ONE orange and ONE green).**

- 3. When gluing, place the legs/head/arms in the correct place.**

**\*model available**

**\*\*Our art projects are often used as a tool to teach several skills (listening, sequential order, following directions etc). This is another way for you to determine how well your child listens to directions and can complete a task from beginning to end. In the future, if your child's art project appears "unusually" pieced together, you will know that the given (repeated) instructions were not followed. We continuously work on being good listeners and careful workers. This is the basis for all learning.**

PINECONE PERSON
